

Melissa Ocasio Hernández

Melissa Ocasio Hernández Melissa is head of household of two. Penélope is three years old, and Atenas is six, both girls being Vimenti students. Ocasio expresses:

“My experience at Vimenti has been very gratifying. The minute What I love the most about the Vimenti School is their family focus. For me, it was an experience I truly needed in my life. At the time, I was going through a divorce because of domestic violence. Vimenti helped me recover my confidence and define goals for myself.

Marta Ortiz

“I participate at Vimenti with my kids Akysa and Abraham Cirino, who are in fourth and third grade. We’ve been here since the very start of the project in 2018. I am a full-time nurse, I live with my husband, kids, and father. I involve myself in every aspect of my children’s education and needs, especially Abraham, who receives complementary services in the Special Education Program. My family has stayed consistent through tough times and financial struggles, thanks to Vimenti. Thanks to the efforts and commitment that we have achieved together as a family.

Adolfo Galimidi

“I am a participant of Vimenti with my wife, Melody Jones. My kids, Jiuleanna Galimidi, is in fifth grade, and Sebastian is in second grade here in Vimenti. My kids are also in the Afterschool Program, where they receive help with their homework and participate in all the art, theater, and sports activities. I actively participate in the Parents Committee and have volunteered for many family activities the school offers. I am a proactive and responsible father who cares for my children's education. Thanks to Vimenti, my wife and I were able to see the light through our financial and health issues by looking for better options to establish our family action plan. I am truly grateful for Vimenti and everything they've done for my family.

Sol Benítez

“My son Adrián and my daughter Adriana have been participating in Vimenti’s services for a few years. When I first joined Vimenti, my goal was to find a job. They helped me with my preparation and job search, and I have been working full-time. It makes me really happy to have achieved my main goal with the help of Vimenti, I’ve gained so much motivation, and they’ve helped me and my family progress. Also, I participate on the “Consejo de Padres de Vimenti” because my kids’ education is my priority.
